DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 24 October 2001 has been entered. As such, claims 17 and 20 were amended. Claims 17 and 20-21 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17 and 20-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are confusing, vague and indefinite. The claims recite a tool comprising a sapphire monocrystal structure with crystal planes without the recitation of any tool structure in the claims. It is not clear as whether applicant is intended to claim a tool such a cleaving knife made with sapphire having monocrystal structure in the claims. The claims fail to limit the semiconductor laser diode structure as recited in the specification of the invention, which renders

the claims confusing, vague, and indefinite. Furthermore, the recitation of "less than about" is considered as incorrect language.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –
(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17 and 20-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Regler et al. (US 4,161,167).

With respect to claims 17 and 20-21, the patent to Regler et al. discloses a lap cutting blades tool for cutting sapphires or rubies comprising the cleavage plane of the cutting edge angle of 40 degrees to 70 degrees. The sapphire comprises monocrystal body structure. It is inherent that when the cutting blade cuts the sapphire, the monocrystal structure of the sapphire forms a cleavage plane parallel to the plane R of the sapphire monocrystal having an angle about 70 degrees as recited in the claims.

Claims 17 and 20-21 are rejected under 35 U.S.C. 102(b) as being unpatentable over Kato et al. (US 4,662,124).

Kato shows in figures 3 and 10 a sapphire monocrystal plate having a major face, an R plane and C planes with an inclination angle less than about 70 degrees as required by the claims.

Response to Arguments

Applicant's arguments with respect to claims 17 and 20-21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Menefee whose telephone number is (703) 605-4367. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Ip can be reached on (703) 308-3098. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-7722.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
